Gregg,

Thank you for all the work you have put into the AGC pay per click campaigns that we are running for 70 plus public courses. Our numbers and results are impressive. We have seen close to a 400% jump in online bookings this year. In addition our site visits and customer data base have both more than doubled year to date.

The momentum is strong as we continue to see all of these numbers grow. Your effort and technology platform has made the effort on AGC's part very minimal for which we are grateful.

If I can recommend you and your services to anyone looking to capture highly targeted leads at a regional or local level please don't hesitate to list me as a reference.

Regards,
